MEMORANDUM FOR: ASSISTANT CHIEF OF STAFF, G-2,
DEPARTMENT OF THE ARMY

SUBJECT: CIA access to intelligence materials

1. During the past few days this Agency has encountered unjustifiable delays in receipt of intelligence and operational cables, telecons, and reports from G-2. These delays are apparently caused by policy within G-2 which requires each such item to be separately and individually cleared for passage to CIA by officers who may or may not be accessible at the time when the item is requested. A procedure for avoiding these delays must be found.

2. The following three individuals are accredited Liaison Officers from the Central Intelligence Agency to the Department of the Army:

25X1

3. These officers are authorized to handle classified intelligence materials of all classifications.

4. It is requested that these officers be granted full access to the G-2 War Room at all hours, it being understood that no more than one of them will ask to be admitted at any one time. It is requested that they be given full access to all cables, telecons, and reports bearing upon the situation in the Far East and in any other areas in which critical developments may emerge. It is further requested that each oral request from any of these officers for copies of items which they regard as essential to CIA be regarded as an official request from the Central Intelligence Agency, and that it be promptly honored.

5. Each of the designated officers has been provided with a copy of this memorandum, and has been instructed to use moderation in asking for sensitive materials of borderline value to this Agency.
